Hand Surgery Booklet of Information

Review the 2023 Hand Surgery Booklet of Information, posted to the ABPS Website. The booklet includes detailed instructions for completion of the Hand Surgery Examination process. Carefully read the entire Booklet of Information.

Case List Submission

Case collection is required for a **consecutive 15-month period within the two years preceding submission of the Application Material** (refer to the Clinical Case Log Manual included in the Booklet of Information). The case list must include a minimum of 125 hand cases and meet at least 5 of 9 required categories. Once minimums are met, you may stop entering cases. This differs from the Oral Exam case collection, where candidates must enter all cases performed during the case collection period. Cases collected during hand surgery fellowship are not acceptable. The Board utilizes a web-based case collection program for the Hand Surgery Examination. Access the Clinical Case Log via the Hand tab of your physician profile on the Board's website.

You must indicate the start date of your 15-month hand case list. All hand cases entered during the 15-month time frame you specified will appear on the case list, including those hand cases entered during the Oral Exam case collection (if applicable).

Please take time to become familiar with the Clinical Case Log instructions on the website and in the Booklet of Information. These instructions are your primary source of information for using the program and inputting data.
