75th Anniversary

Chair Report

Donald H. Lalonde, M.D.

I offer a challenge to each of our diplomates to promote the meaning of Board Certification to our patients. The achievement of training, study and examination that certification and maintenance of certification represents sets you apart.

In my role as Chair of the Board this year, diplomates often ask me, “What are you doing to help me compete with all of those who claim they are plastic surgeons when they are not ABPS certified?” The answer to the question is simple and very achievable with some group effort. I recommend a little “grass roots” work. If every ABPS diplomate convinced local colleagues from the other 23 member boards of the American Board of Medical Specialties (ABMS) who are participating in Maintenance of Certification (MOC) to use the ABMS MOC *Starmark* logo on letterhead, websites, and business cards, the impact would be large. There could be nearly 800,000 certified physicians from the ABMS Board Enterprise in America sending millions of patients the message that this logo represents care by an ABMS Board Certified doctor; in this case, you, the plastic surgeon.

American Board of Plastic Surgery
ABMS Maintenance of Certification

Certification Matters

Imagine all patients seeking healthcare viewing this logo every day, with other medical and surgical specialists' names associated with this universal “seal of approval.” We can make this possible. ABPS led the ABMS member boards in using the MOC logo. Others have followed and you may need to recommend other specialists lobby their own board to make the ABMS *Starmark* logo available for use. This is all about us; it has to start with you and me and each and every one of us in Plastic Surgery. Is this logo on your business card, website, e-mail signature and letterhead yet? It should be. I placed the logo on my own practice

documents. The *Starmark* logo is available to every diplomate in the MOC Program each year when the current requirements are completed. Log in to your ABPS *MOC-PS*[®] Tracking Page on the Board's website www.abplsurg.org to download the logo. I encourage you to have a conversation with your colleagues across the country about utilizing this logo to distinguish them too, if approved by their own board. The “grass roots” movement needs to begin with plastic surgeons because it is very meaningful to us. Many plastic surgeons promote their practices through a significant amount of advertisements, perhaps more so than those certified by the other ABMS member boards. A concerted effort is needed from all of us to recruit our friends and colleagues to assist us and we can make it happen.

This movement is also a call for all lifetime certificate holders to voluntarily participate in *MOC-PS*[®] if not already doing so. Make submission of the MOC application a 2012 New Year's resolution! Contact the Board Office at staff@abplsurg.org if you are interested.

ABPS MOC Program: A Leader among the ABMS Surgical Boards

Creating and participating in the Board's mandatory *MOC-PS*[®] program has been a challenge for every time-limited diplomate. However, our requirements during the 10 year cycle, especially in years three, six and nine for continued education, reflection on our practice with the tracer modules and review of continued improvement with a benchmarking report, have been productive for plastic surgeons. The initiation of our MOC program in 2007, which I was privileged to shepherd as the *MOC-PS*[®] program chair, has served as a model for the other ABMS surgical boards.

The computer based examination required by the end of the 10 year cycle, with the MOC Study Guide available from the American Society of Plastic Surgeons (ASPS) has also been valuable to provoke study, to strengthen our knowledge base and hopefully to improve our patient care. The Board, plastic surgery societies and the Board's Advisory Councils continue to work extremely hard to make sure that the content of the examination and the material in the study guide is useful, practical, up to date information that a mature plastic surgeon should know in today's world. Surgeons of other specialties look to our program with admiration.

The Board has worked in cooperation with all of our major societies and the journal, Plastic and Reconstructive Surgery (PRS) to create evidence based articles and courses to help guide our diplomates in this age of information overload. I watched many people work very hard for plastic surgeons in these endeavors, and we are all very indebted to them.

R. Barrett Noone, M.D.: An ABPS Icon

The Board has been truly blessed to have Dr. Barry Noone as our first and only Executive Director since his election in 1997. When his term ends in August of 2015 these 19 years will undoubtedly be known as "the golden Noone years."

I have been privileged to work very closely with Dr. Noone over the last seven years. However, this year as chair, my respect for Barry has quadrupled: an amazing thing considering the extremely high esteem I had for him during my last six years as a director. In my role as chair, he and I talk on the phone weekly and e-mail almost daily about the important issues affecting the specialty, the Board, its diplomates and candidates. I now have a deep appreciation of the depth and accuracy of his understanding of the diverse details and issues that affect us all. He cares deeply about the diplomates and the Board and dedicates his time and energy to always doing what is right for the specialty. He improves with age like a fine wine.

One of the most important acts of a superstar leader is to ensure that his successor has the right tools for a seamless transition. Dr. Noone will do just that by grooming the next Executive Director of the Board well before his

News from the Secretary-Treasurer

term concludes to provide that smooth transition. Later this spring, the Board will call for applicants who wish to be considered for the role of Executive Director of ABPS in August 2015. All ABPS diplomates will be eligible. Look for an announcement in Plastic Surgery News. The Board will consider applicants for the Executive Director-Elect over the next year. ABPS will approve the final applicant in 2013. Dr. Noone will begin grooming his successor in the fall of 2013 in the same meticulous way he performs all his work for the Board; that is, with full attention to detail in a wise, polite, and strategic fashion. Dr. Noone has even offered to be available after August 2015 for whatever purpose the Board may request of him.

Thank You to Our Diplomates

Your Board works hard for you. We are also very indebted to our diplomates. With your support, both in volunteerism, in financial contributions, and in valuing the certification and maintenance of certification process, we have strength and pride as the family of plastic surgery. We are indeed a powerful group with a bright future, thanks to you.

From the Executive Director

R. Barrett Noone, M.D.

This column in the Annual Newsletter to our diplomates allows me to review some of the highlights of the many important activities of the Board in 2011.

THE BOARD CELEBRATES 75 YEARS OF GROWTH IN THE PUBLIC TRUST

The American Board of Plastic Surgery was founded in 1937 at an organizational meeting held at the home of Vilray P. Blair, MD in St. Louis. As we begin 2012, plans are underway to mark the 75th Anniversary of the Board. The American Association of Plastic Surgeons Annual meeting in San Francisco in April will feature a presentation of the Board's history. The Association meeting follows the Annual Meeting of the Board. In addition, I have been privileged to author an updated article as a companion to the original 50 year history written by Claire G. Fox, PhD and William P. Graham, III, MD. In the spring, this monograph will be made available in electronic form on the Board's website www.abplsurg.org and will be submitted to the journal, *Plastic and Reconstructive Surgery* for publication.

POLICY FOR LIMITATIONS ON BOARD ELIGIBILITY

Although the Board does not endorse or allow use of the terms "board eligible, qualified or admissible," by diplomates when referring to their certification status, the policy has been that candidates were given unlimited opportunities to take the examinations so long as an application was submitted every five years. This policy will change in the near future.

The twenty-four member boards of the American Board of Medical Specialties (ABMS) have been working on a process to determine uniformity among the Boards in eligibility to complete examination and certification. The Board eligibility policy of ABMS was detailed in September, 2011 by the Board of Directors of ABMS and essentially states that the ability of a candidate to become Board certified is related to the time from completion of residency in an ACGME accredited residency program. The ABMS boards believe that it is not in the best interest of the specialty, the credentialing community, patients or the public for the status of "Board Eligibility" to remain an open and indeterminate period.

The unlimited policy of the American Board of Plastic Surgery will need to be altered to be consistent with the other boards of the ABMS. The new ABMS policy states that a candidate's eligibility for board certification by an ABMS member board expires on a date determined by the member board, and that date must be no fewer than three and no more than seven years following the successful completion of an accredited residency training program, in addition to time in practice required by the member board. The ABPS requires one year of practice following residency in order for the candidate to collect cases for the Oral Examination. Accordingly, our Board is working on a policy for expiration of eligibility for plastic surgery that will likely be no more than eight years following completion of the initial residency. In this time period, both the Written Examination and the Oral Examination must be successfully completed and certification achieved. If eligibility expires, the candidate must complete specific requirements for re-entry into the certification process. These requirements are currently under review by the Board. Under a transition plan, those candidates who have completed residency training but have not yet achieved initial certification as of January 1, 2012 will have no longer than January 1, 2019 to achieve Board certification. As applied to ABPS, essentially through the November 2018 Oral Examination administration, the transition period will be complete. The policy will be in full effect on that date and applicable to all candidates for certification by any of the ABMS member boards.

MAINTENANCE OF LICENSURE

The member boards of ABMS have been working actively with the Federation of State Medical Boards (FSMB) and the National Board of Medical Examiners (NBME) in exploring pilot programs to test aspects of a potential national Maintenance of Licensure (MOL) system. The discussions have focused on a collaborative model for the three organizations to support State Medical Boards in developing and implementing their Maintenance of Licensure requirements. As of September, 2011, eleven State Medical Boards expressed interest in participating in Maintenance of License pilot activities. The groups involved are planning a process to work with the FSMB to support our member board diplomates to use MOC participation in order

From the Executive Director - Continues on Page 4

2011 - 2012 Advisory Council Members

The Advisory Council Members listed below were nominated from the American Association of Plastic Surgeons (AAPS), the American Society of Plastic Surgeons (ASPS), the American Society for Aesthetic Plastic Surgery (ASAPS), the American Association for Hand Surgery (AAHS), the American Society for Surgery of the Hand (ASSH) and the American Society of Maxillofacial Surgeons (ASMS). In addition, there are two Directors of the Board on each Council. The Board acknowledges the significant contributions of each of the following Advisory Council Members:

Comprehensive Plastic Surgery

Charles E. Butler, M.D. (AAPS)
W. Thomas Lawrence, M.D. (AAPS)
Michael F. McGuire, M.D. (ABPS), Chair
Sheri Slezak, M.D. (ABPS)

Cosmetic Surgery

Al S. Aly, M.D. (ASAPS)
James C. Grotting, M.D. (ASAPS)
Thomas A. Mustoe, M.D. (ABPS)
Anne Taylor, M.D. (ASPS)
Charles H. M. Thorne, M.D. (ABPS), Chair

Craniomaxillofacial Surgery

Steven R. Buchman, M.D. (ASPS)
Arun K. Gosain, M.D. (ABPS), Chair
Kant Y. K. Lin, M.D. (ASMS)
Donald R. Mackay, M.D. (ABPS)
Henry C. Vasconez, M.D. (ASMS)

Hand Surgery

James Chang, M.D. (ABPS)
Kevin C. Chung, M.D. (ABPS), Chair
James P. Higgins, M.D. (ASSH)
David T. J. Netscher, M.D. (ASPS)
Michael W. Neumeister, M.D. (AASH)

to comply with Maintenance of Licensure requirements. At the present time over 300,000 diplomates are participating in a Maintenance of Certification program of the individual boards, and it is hoped that in the future these diplomates will be able to demonstrate ongoing competencies through MOC to satisfy licensure requirements in the individual states.

ABMS AMBASSADOR NETWORK

Communication with individual state licensing boards and state legislators regarding the value of certification by an ABMS member board has led to the development of an Ambassador Network program, supervised by the ABMS. This will allow direct input to state authorities and other regulators to highlight the value of board certification, and specifically boards that are members of the ABMS. In plastic surgery, this is particularly important because of the high visibility of our specialty in the media. The value of certification by The American Board of Plastic Surgery was highlighted this past fall in a two article series in USA Today. The future may also involve the Ambassador Network in working with the Maintenance of Licensure program. Dr. Michael F. McGuire, a Director of ABPS, has been nominated to serve on the ABMS Ambassador Network.

GROWTH OF MAINTENANCE OF CERTIFICATION

The Maintenance of Certification (MOC-PS®) program of the Board continues to grow, with valuable data being received from the Part IV practice assessment modules (PA-PS). In the final month of 2011, a total of 3,145 practice assessment modules were completed since the beginning of the programs. A review of the statistics on PA-PS from January 2008 through December 31, 2011 recognized the top five tracer procedures selected by the individual diplomates to enter data in evaluating and improving their practices. The most frequently used are listed below, with augmentation mammoplasty still leading the group.

Beginning January 2012, Part IV materials are available to diplomates from the certification years of 1996, 1999, 2003, 2006 and 2009. Approximately 1,123 diplomates are scheduled to complete these activities during the year 2012, with 529 completing the MOC-PS® for the second time. This year will be the third year that two classes of diplomates will be completing the tracer modules for a second time, giving the opportunity for them to evaluate improvement in practice by comparing their benchmarking report data with their prior MOC cycle data for the same operation. It remains empowering to the program that the majority of diplomates completing practice assessments state that they would change one or more aspects of their practice as a result of the assessment.

The MOC program of course includes an examination which is required once during the ten year cycle. In 2011, the examination was taken by 174 diplomates, with a passing rate of 96.6%, leaving a failure rate of 3.4%. This was the fifth MOC-PS® examination since Maintenance of Certification replaced Recertification in plastic surgery. In 2011, 88 completed the comprehensive module examination and 79 the next most common module in cosmetic surgery. The balance selected either hand surgery or craniomaxillofacial surgery. Preparing for the MOC examination by using the ASPS study guide continues to reinforce the educational value of MOC.

THE BOARD'S WEBSITE: "IS YOUR SURGEON CERTIFIED?"

Diplomates may now have noticed the Board's website www.abplsurg.org highlights a link documenting an individual surgeon's certification history, and status of whether a surgeon is current or not current with MOC requirements. Lifetime Certificate Holders will have a listing in the MOC-PS® column only if voluntarily participating, otherwise that column remains blank. There are approximately 185 Lifetime Certificate Holders currently enrolled in MOC-PS®. The ABPS website is in continual use by consumers, with an average of 18,000 visits per month. Certification can also be verified at www.certificationmatters.org.

TracerName	2007	2008	2009	2010	2011	Tracer Totals	% Total

Alert to Senior Partners About Advertising

Candidates are not permitted to advertise any status with the Board until certification is achieved. This includes use of the terms board qualified, board eligible or board admissible. Senior partners and practice managers should check all advertising with new physicians in the practice. The Board defers candidates in the examination process for one year for misstatements, however inadvertent, of board status. Candidates are responsible for misleading advertising, no matter how inadvertently placed.

The Board welcomes its Diplomates to report any false, misleading or deceptive advertising to the Board Office. For example, use of the Board's trademarked logo on a website.

The Board's Trademarked Logo

The use of the Board's Logo is exclusive for business of the Board only and is not permitted for any other purpose. Diplomates should remove this logo from all practice websites and materials. Please notify your web vendor. The Board appreciates the cooperation of all diplomates.

Board Website

www.abplsurg.org is the central location for all resident, candidate and diplomate activities. Log in to your physician profile. Keep your mailing and e-mail addresses current. Diplomates are encouraged to list their business address and phone number on the profile for the consumer search.

Congratulations! ELECTED TO SERVE ON THE BOARD FROM 2011 - 2017

The Board welcomes the following New Directors elected in April 2011 in Boca Raton, Florida

Jeffrey M. Kenkel, M.D.
Dallas, TX

Medical School: Georgetown University School of Medicine
General Surgery Residency: Georgetown University School of Medicine
Plastic Surgery Residency: The University of Texas Southwestern Medical Center
Current Academic Appointment: Vice Chairman and Professor of Plastic Surgery of the University of Texas Southwestern Medical Center in Dallas, Texas

Administrative Titles: Director, Clinical Center for Cosmetic Laser Treatment
Rod J. Rohrich, M.D. Distinguished Professorship in Wound Healing and Plastic Surgery

Leadership and Editorial Positions: President, American Society for Aesthetic Plastic Surgery, Associate Editor of *the Aesthetic Surgery Journal*, Editor of *Selected Readings in Plastic Surgery*

Board Certifications: Diplomate, American Board of Plastic Surgery 1998 and **ABOC-PS**® 2007

Joseph M. Serletti, M.D.
Philadelphia, PA

Medical School: University of Rochester
General Surgery Residency: University of Rochester
Plastic Surgery Residency: University of Rochester
Fellowships: Craniofacial, Johns Hopkins School of Medicine
Current Academic Appointment: Henry Royster-William Maul Measey Professor of Surgery, University of Pennsylvania

Administrative Titles: Chief of the Division of Plastic Surgery, University of Pennsylvania Health System
Vice Chair (Finance), Department of Surgery

Leadership and Editorial Positions: President, American Council of Academic Plastic Surgeons: Vice President, American Society for Reconstructive Microsurgery, Parliamentarian: American Society of Aesthetic Plastic Surgeons, Secretary, Northeastern Society of Plastic Surgeons, Vice President, Robert Ivy Society, Past Associate Editor: *Plastic and Reconstructive Surgery*, Associate Editor: *Aesthetic Surgery Journal*, Associate Editor: *Annals of Plastic Surgery*, Associate Editor, *Journal of Reconstructive Microsurgery*

Board Certifications: Diplomate, American Board of Plastic Surgery 1992 and **ABOC-PS**® 2003

Charles N. Verheyden, M.D.
Temple, TX

Medical School: University of Texas Medical Branch M.D., PhD. 1968-1973
General Surgery Residency: Mayo Graduate School of Medicine
Plastic Surgery Residency: Mayo Graduate School of Medicine
Fellowships: Craniofacial, Mayo Graduate School of Medicine
Current Academic Appointment: Professor of Surgery, Texas A&M HSC
Administrative Titles: Director, Division of Plastic Surgery, Scott & White
Leadership and Editorial Positions: AACPS: President, President-Elect, Vice-President, Secretary-Treasurer, Texas Society of Plastic Surgeons: President, Vice-President, multiple committees and chairs
ACGME: Residency Review Committee for Plastic Surgery, AAPS: Multiple committees, Chair of Research and Education Committee Scott and White: Served and chaired multiple committees, Vice-President Clinic Staff Organization, ASPS/PSF: Advertising Editor, *Plastic & Reconstructive Surgery & Plastic Surgery News* 2007- Present
ASPS/PSF Board of Directors, 2007- Present
ASPS/PSF Executive Committee 2009-Present
Immediate Past President American Council of Academic Plastic Surgeons
President Elect Plastic Surgery Foundation

Board Certifications: Diplomate, American Board of Surgery
Diplomate, American Board of Plastic Surgery 1981 and **ABOC-PS**® 2003 and 2011

2012 EXAMINATION DATES & LOCATIONS

Maintenance of Certification Examination in Plastic Surgery (MOC-PS®)

April 1, 2012 through April 30, 2012 - Computer Based Test at Prometric Test Centers throughout the United States and Canada

Hand Surgery Examination and Hand Surgery Recertification Examination

September 10, 2012, Monday – Initial Hand Surgery Examination

September 10, 2012 through September 22, 2012 - Hand Surgery Recertification Examination Computer Based Test at Prometric Test Centers throughout the United States and Canada

Written Examination

October 15, 2012, Monday - Computer Based Test at Prometric Test Centers throughout the United States and Canada

Oral Examination

November 8, 9, 10, 2012 - Thursday, Friday and Saturday in Phoenix, Arizona

TO OUR NEW BOARD DIPLOMATES

The American Board of Plastic Surgery, Inc. certified 176 diplomates in November 2011. To date the Board has certified 8,119 plastic surgeons. Those certified in 2011 are:

David Matthew Adelman
Omar Ahmed
Raj S. Ambay
Sewit Amde
Bardia Amirlak
Lewis Albert Andres
Adam Peter Angeles
John George Apostolides
James Ziegler Appel, III
Peter Bondurant Arnold
Alisha Arora
Jyoti Arya
Melanie Lynn Aya-ay
Nebil Bill Aydin

Paul Zidel

MAINTENANCE OF CERTIFICATION (MOC-PS®) PROGRAM

All diplomates should log in to the Board's website to review their individual MOC-PS® tracking page to ensure they are current with requirements to maintain certification. The tracking page outlines MOC-PS® requirements by year and lists deadline dates, status and completion dates.

Once the MOC-PS® requirements are met in any calendar year, look for the ability to download the following:

- 1-Confirmation of Participation letter;
- 2-Certificate verifying the MOC-PS® requirements have been met; and
- 3-The ABMS MOC Starmark logo. Diplomates are encouraged to use this logo on their website, letterhead, advertisements and business cards.

American Board of Plastic Surgery ABMS Maintenance of Certification Certification Matters

Review the general timeline below for an outline of requirements within the 10 year MOC cycle:

10 YEAR CYCLE:	MOC-PS® Annual Contribution required each year
YEAR 3	STEP 1: Practice Assessment in Plastic Surgery (PA-PS) Module including: tracer procedure, benchmarking report, MOC-approved CME, action plan. STEP 2: Professional Standing Update including CME report(s). Additional documentation required if selected for audit.
YEAR 6	STEPS 1 & 2: PA-PS Module & Professional Standing
YEAR 7, 8 OR 9	Examination Application and 6 month Case List compilation.
YEAR 9	STEPS 1 & 2: PA-PS Module and Professional Standing
YEAR 8, 9 OR 10	MOC-PS® April Computer Based Test (CBT)
YEAR 10	MOC-PS® Certificates mailed to those who successfully completed the 10 year cycle

Plan ahead for completion of the PA-PS Module MOC CME activity.
The MOC CME must be aligned with the specific tracer procedure selected.

The following societies and medical journals offer MOC-approved activities:

- The American Society of Plastic Surgeons (ASPS) and Journal of Plastic and Reconstructive Surgery (PRS) - www.psenetwork.org
- The American Society for Aesthetic Plastic Surgery (ASAPS) and Aesthetic Surgery Journal (ASJ) - www.surgery.org or www.aestheticsurgeryjournal.com
- The American Society of Surgery of the Hand (ASSH) and Journal of Hand Surgery (JHS) – www.assh.org or www.jhandsurg.org/cme/home
- The American Association for Hand Surgery (AAHS) - www.handsurgery.org
- The Northeastern Society of Plastic Surgeons (NESPS) - www.nesps.org

Contact the society directly for details on the individual MOC-approved courses and articles offered. The Board is also accepting course submissions from other specialty societies and will update the website as they are approved. The CME credit earned by completing the MOC-approved educational activity will also be applied to your 150 CME hour requirements.

NOTE: The Board Office will send mailings and e-mail notices to the applicable diplomates prior to any deadlines. Be sure that your e-mail address is updated in the "My Profile" tab available once logged in to the Board's website. E-mail staff@abplsurg.org with questions about the MOC program.

RENEWAL CERTIFICATES

Renewal certificates are mailed December 1st of the expiration year rather than at the completion of the MOC-PS® examination. **All MOC-PS® requirements must be met to receive your new certificate.** Look for frequent e-mail reminders regarding outstanding requirements.

REVOKED CERTIFICATES

The Board continues to review and assess diplomates who have had sanctions, revocations, etc. on state medical licenses. In 2011, the following ABPS certificates were revoked. To date, a total of 75 certificates have been revoked.

- John Ernest Christ, M.D. - TX • Richard Arthur Jaqua, M.D. - CA
Mark Anthony Knight, M.D. - CA • Alfred Julian Koonin, M.D. - CA
Barry Frederick Shesol, M.D. - CO

2012 Diplomate Dues and MOC-PS® Annual Contribution

Enclosed is one of two forms for reference: a 2012 Diplomate Dues Remittance Form for Lifetime Certificate Holders or the 2012 MOC-PS® Annual Contribution Form for Time Limited Certificate Holders.

Time-limited Certificate Holders – The MOC-PS® Fee of \$225 is mandatory for diplomates with time-limited certificates who are participating in the MOC-PS® Program. Log in to the Board's website to complete the form on-line and pay by credit card. **You must use your username and password.** If you have not already created a username and password, your username is your six digit board number which can be found on the remittance form. Your password is your last name (this is case sensitive, first letter should be capitalized, e.g., Smith).

Lifetime Certificate Holders – The Diplomate Dues of \$225.00 is requested of lifetime certificate holders who elect not to participate in MOC-PS®. Credit Card payment is the preferred method for remittance. However, if necessary, you can complete the form and forward a check for \$225.00 made payable to **The American Board of Plastic Surgery, Inc.** and return to the Board Office by **April 15, 2012.**

The ongoing support of the Diplomate Dues request has been gratifying. Since 1999, approximately 65% of our diplomates have responded. The income from the dues has greatly assisted the Board in its operations and its mission, and has been especially helpful in defense of the standards represented by the ABPS certificate and development of web-based procedures.

Change of Address to the ABPS

Help the Board keep our records up to date. Enter your change of address via your physician profile by logging in to www.abplsurg.org.

Change of Address to the ABMS

Update your listing in the ABMS Directory by faxing or mailing a notice on your stationery directly to:

The American Board of Medical Specialties (ABMS)
222 North LaSalle Street, Suite 1500
Chicago, IL 60601
Attention: Database Department
Phone Number: 312-436-2600
Fax Number: 312-436-2700
Website: ABMS.org

Newsletters and Booklets of Information are on the Board's Website

This and past years Newsletters are posted on the Board's website. The Booklets of Information are published annually and contain the established requirements, policies and procedures of the Board relating to residency training and the certification, MOC-PS® and SOTH processes.

2012 POTENTIAL ORAL EXAMINATION CANDIDATES

The following physicians are candidates potentially admissible to the 2012 Oral Examination. The Board will review comments regarding the suitability of any candidate for certification. Please direct written comments on official letterhead, signed and received in the Board Office by April 1, 2012. If you are aware of a potential candidate omitted from this list, please e-mail to oral@abplsurg.org.
